Highlands Ranch, CO 80126

Dear Sir/Ma'am,

ABC has a scholarship opportunity for your students.

The Associated Builders and Contractors Rocky Mountain Chapter has established a scholarship fund to help provide financial support for high school students pursuing a career in construction. A maximum of four scholarships will be awarded this year to students planning to attend an accredited college, university or post-secondary vocational school. Funds can also be used by students looking to defray costs of an apprenticeship program, for instance books, or tools. Full details on this program are laid out on the enclosed application cover page.

We would greatly appreciate it if you would notify your counselors of this opportunity and ask them to present it as a financial supplement opportunity to qualified students.

Also, we would very much like to have your help in updating our records so that we can notify you of additional Chapter and corporate funding opportunities as they arise. Please take a moment to email me at kgrosel@abcrmc.org with the name of your facility, a contact name, and their email address.

Our association is involved in many industry partnerships. We have opportunities for representatives from the construction industry to be involved in your students' career path efforts, including job shadowing, career talks and career fairs. For more information about our program resources or to have a construction industry representative participate in your activities, please contact me at via email or by phone at 303-832-5812. I am also asking for information about programs for students at your location, externships, mentoring programs, etc. What do you have going on that would interest companies in the construction industry? Let me know!

Sincerely,

Kim Grosel
Director of Workforce Development

Scholarship Application

Associated Builders and Contractors Rocky Mountain Chapter

Purpose:

- ← The purpose of the *Bob Piper Construction Education Scholarship* is to encourage further education and support growth in the construction industry.

Areas of Interest:

- ← Construction-related fields or professions including, but not limited to, electrical, plumbing, HVAC, masonry, painting, carpentry, architecture, or construction management.

Award Categories/Level of Education:

- ← A maximum of four scholarships (2-\$1000 & 2-\$500) will be awarded this year.
- ← Scholarships are available to students pursuing a Certificate of Completion or a post-secondary education leading to a Bachelor's Degree in a **construction-related field**.

Eligibility Requirements:

- ← Intend to register at or attending an accredited college/university or post-secondary vocational school of his/her choice.
- ← Complete the scholarship application.
- ← Provide high school transcript.
- ← Have a minimum accumulative grade point average of 2.0 from high school.
- ← Provide two (2) letters of recommendation. (The people providing the recommendations must include a phone number where they can be reached for verification).
- ← Be an American citizen or naturalized citizen.
- ← Must currently attend a high school in the state of Colorado.

Payment:

- ← Scholarship will be paid directly to the college/university or post-secondary vocational school with proof of registration from the participating educational institution. Payments will only be made toward tuition, books, room and board, and course related materials/supplies.

Application Deadline: March 31, 2017
